

# uniview outdoor

by Uniline

## Secure your privacy in contemporary fashion

Uniview Outdoor is a heavy duty awning fabric that's perfect for external windows and screening off pool and al fresco entertaining areas. It offers unparalleled sun and glare protection, fantastic outward visibility and just enough inward light filtration, offering privacy from the outside world during the day.

Uniview Outdoor comes in a palette of 12 contemporary colours, carefully selected to match or contrast with external walls and fences. Shades range from light natural tones of sandstone and pebble to the industrially-inspired hues of ebony & slate grey. It is backed by our 5 year guarantee.

The new 3000mm width offers the same range of popular colours catering to wider widths, and the heavier yarn construction provides greater strength and dimensional stability.
